Dear Mr. Penders,

I wish to express my gratitude for the generous scholarship support to The Williamson Free School of Mechanical Trades from the Friends of Lou Schisler 7W9.

I came to Williamson nearly three years ago from Pine Grove, Pennsylvania to learn a trade. As I approach my last few months here, I look back at my experiences so far and am truly grateful.

At Williamson, I not only have the opportunity to learn the machine tool technology trade from some of the most talented professionals in the area, I have been given the chance to grow as a person and join the ranks of Williamson men.

The opportunities I am presented with every day allow me to work hard to stay at the top of my class academically, to participate in extracurricular activities and, most importantly, to incorporate values into my life every day. These challenges, combined with the professional experience I've gained, will give me the opportunity to succeed both personally and professionally.

I realize that without generous donations from those who have supported Williamson's mission for more than 100 years, I would not be here today. Your gift is a very meaningful tribute to Mr. Schisler. I am sure he would truly be proud to know that a Williamson scholarship was granted in his name.

Most sincerely,

Jarred Wilhelm
Class of 2008
Machine Tool Technology Program
